

V-400S

The next-gen **V-400 S** features -

- **HKD GEYSER** anti-clogging center nozzle
- Remote Control Functionality
- Galvanized Steel Skid
- 330 degree programmable oscillation
- Water Connection: 2"
- Power Requirements: 45kVa
- Weight: 2,200 lbs *

This large sized cannon is the perfect combination of versatility and efficiency. The compact skid unit can easily be transferred by a forklift, loader, or crane into difficult-to-reach areas of a site.

This 400 series unit provides industry leading coverage while reducing energy and water requirements.

SPECIFICATIONS

Operation	Remote or Manual
Variable Flow Rates	10 - 50 gpm 1.2 - 18 m ³ /h
Projection	250 ft 76m
Automatic Oscillation	330°
Misting Coverage	146,280 ft ² 13,590 m ²
Fan Motor	25 hp 19 kW
Fan Capacity	33,000 cfm 56,067 m ³ /h
Pump Motor	15 hp 11.2 kW
Pump Capacity	10-60 gpm @ 250 - 400 psi 2-14 m ³ /h @ 17 - 27 bar
Voltage/Frequency	480v @ 60 Hz 600v @ 60 Hz 380v @ 50 Hz
