V-400T

The Next-Gen **V-400T** features:

- **HKD GEYSER** anti-clogging center nozzle
- Remote Control Functionality including **Variable Flow** technology
- Galvanized steel single axle trailer
- 330 degree programmable oscillation

The **V-400** Trailer is light and compact making it easy to maneuver the unit from site to site. The trailer can be disassembled to easily to just the S chassis reducing its overall footprint on tight jobs.

SPECIFICATIONS

Operation	Remote or Manual
Variable Flow Rates	10-70 GPM 2.3-16.8 m3/hr
Projection	250 ft 76m
Automatic Oscillation	330°
Misting Coverage	146,280 ft² 13,590 m^2
Fan Motor	25 hp 19 kW
Fan Capacity	33,000 cfm 56,067 m^3/h
Pump Motor	15 hp 11.2 kW
Pump Capacity	10-70 gpm @ 250 - 400 psi 2-14 m^3/h @ 17 - 27 bar
Voltage/Frequency	480v @ 60 Hz 600v @ 60 Hz 380v @ 50 Hz

Trailer Specifications

Trailer Hitch	2” (Pintle Available)
Power Requirement	45KVA
Water Connection	2”
Leveling Jacks	3
Weight	3,000 lbs
